

For Immediate Release

RE: Beachburg Drinking Water System Precautionary Boil Water Advisory Cancellation

Whitewater Region, Ontario – February 6, 2023

The Township had scheduled the replacement of the pressure tank for the Beachburg Drinking Water System (DWS). Notification was provided within Issue 1 January 2023 edition of "The Current" and additional notification was anticipated.

New pressure tanks are being installed at the Beachburg Water Treatment Plant but the connection to the distribution system has been rescheduled to a later date. As a result, the precautionary boil water advisory will not longer take place on Wednesday, February 8th, 2023.

Staff from the Ontario Clean Water Agency (OCWA) and the Township of Whitewater Region are investigating additional options to limit the disruption to water users of the drinking water system.

Future messaging regarding this project will occur directly via mailouts and on Township's website.
